

HAND HYGIENE

Protect yourself and others from the spread of illnesses. It is important to wash your hands:

- After coughing or sneezing
- When caring for the sick
- Before, during and after you prepare food
- Before eating
- After toilet use
- When hands are visibly dirty
- After handling animals or animal waste

Wet hands with water

Apply enough soap to cover all hand surfaces

Rub hands palm to palm

Right palm over left dorsum with interlaced fingers and vice versa

Palm to palm with fingers interlaced

Backs of fingers to opposing palms with fingers interlocked

Rotational rubbing of left thumb clasped in right palm and vice versa

Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa

Rinse hands with water

Dry thoroughly with single use towel

Use towel to turn off faucet

... and your hands are safe
