

DRUG TESTING

IR Service

Drug use in the workplace is estimated to cost \$6 billion per year in lost productivity. Workers ‘under the influence’ not only present an injury hazard to themselves, they also place their co-workers in danger.

In the automotive industry, employers are required to take reasonable steps to ensure a drug-free, safe workplace by the Workplace Health and Safety Act 2012 (SA). Failing to do so can result in serious consequences and penalties.

To provide a safe, drug free workplace, the MTA is able to provide a Drug Policy and Procedure and deliver drug-testing for blanket and random testing, and ‘for cause’ events (accidents in the workplace).

Prior to undertaking any drug testing in the workplace it is imperative a Drug Policy and Procedure is in place and up-to-date. This means that if any drug testing is undertaken enforcement can be taken against offending employees.

The MTA provides either urine or saliva testing as follows:

Members Cost:

Urine Testing:

- Site attendance: \$250.00
- Instant Testing Fee: \$25.00 per test performed
- Lab Confirmation: \$63.00

Saliva Testing:

- Site attendance: \$250.00
- Instant Testing Fee: \$35.00 per test performed
- Confirmation Testing: \$25.00
- Lab Confirmation \$63.00

Non Members Cost:

Urine Testing:

- Site attendance: \$350.00
- Instant Testing Fee: \$25.00 per test performed
- Lab Confirmation: \$63.00

Saliva Testing:

- Site attendance: \$350.00
- Instant Testing Fee: \$35.00 per test performed
- Confirmation Testing: \$25.00
- Lab Confirmation \$63.00

All testing is conducted by persons qualified in taking specimens and maintaining a proper chain of custody.

Where a positive result is confirmed, the MTA can also assist with appropriate follow-up action as required.
