

# EVACUATION MAPS

IR Service

Evacuation maps are a legal requirement under Australian Standard 3745-2010 *“Planning for emergencies in facilities”* and can also be a requirement under contracts with insurance companies such as the RAA and IAG are maintained.

Regulation 43 of the Australian Standard 3745-2010 requires any person conducting a business to ensure an Emergency Plan is:

1. Prepared (to requirements);
2. Maintained;
3. Relevant; and
4. Implemented.

Engage the experienced MTA team to create compliant maps for your business to minimise the impact of fire or other emergencies and guarantee your business is prepared to:

- ▶ Save lives in the event of an emergency
- ▶ Safeguard your premises and equipment from damage or loss
- ▶ Ensure compliance and protect your business from fines

The MTA Workplace Relations department has the experience and resources to prepare maps which include the required information and meet the conditions of compliance such as:

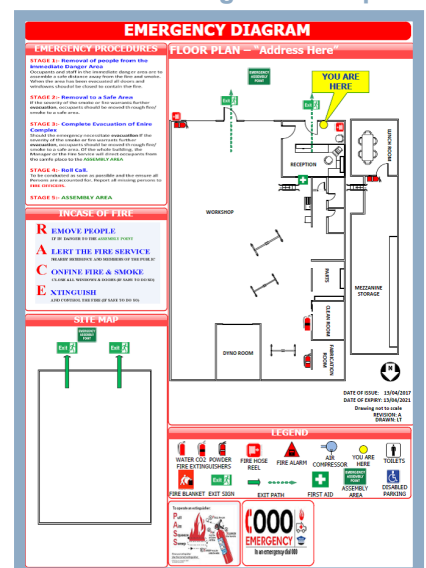

- ▶ Emergency response information
- ▶ Emergency exits and assembly point are clearly marked
- ▶ Location and installation meets Australian standards including: position, size and orientation
- ▶ Information is clear and concise for both staff and visitors of the facility to follow and evacuate in case of an emergency

Evacuation maps are available to both members and non-members at a significantly discounted price when compared to average market rates.

For further information, please go to: [www.mtaofsa.com.au/evacuation-maps](http://www.mtaofsa.com.au/evacuation-maps)

**Costs:** Small site: \$150 MTA members | \$250 Non-members  
 Large site: \$350 MTA members | \$580 Non-members
